- Boric Acid
- Manganese Sulfate

TECHNOLOGY

Biotechnology in Plant FItness.

TURF FIT™

HOW TO USE

MicroBooster can be mixed with other Plant Fitness products, most fungicides, plant growth regulators, or soluble fertilizers. Apply it to your greens whenever you want to improve or maintain color and consistency.

PRODUCT APPLICATION RATES

APPLICATION	USE RATES	FREQUENCY
Cool-season Turf	60 - 180 mL / 100 m^2 in 400 - 800 L of water per hectare	7 - 14 days
Warm-season Turf	60 - 180 mL / 100 m^2 in 400 - 800 L of water per hectare	7 - 14 days

PROGRAMS

RECOVERY | BEAT THE HEAT | TOTAL FITNESS | TOURNAMENT READY | MORE COLOR

MicroBooster is found in most Plant Fitness Programs because of it's impact on plant energy and performance. The boosted micronutrients in MicroBooster are critical for finely maintained turf, especially when improved quality and durability are desired.
